TECHNICAL DATA SHEET

MP 64

Description: Polyester Film which has been coated on one side with Saran Barrier coating is laminated to Bleached Kraft Paper, which the barrier coated side facing the paper. It has good resilience and conforms to the contour of the rim of the container. The plain side of the polyester film will face the product directly with excellent solvent, chemical and mechanical resistances. It has a white, smooth and glossy finish. Since the thin Saran coating on the polyester film is processed and sandwiched between the film and the paper, it will not contact the product directly.

SPECIFICATIONS

	Material	Thickness [in]	Thickness [mm]
1.	Polyester Film	0.0006	0.0152
2.	Kraft Paper	0.0030	0.0762
	Total Structure	0.0037 +/- 0.0004	0.0940 +/- 0.0094
